

FLY

THE LIGHTEST SPORT BOTTLE AVAILABLE WORLDWIDE

Fly is the lightest sports bottle available worldwide.

Its record 51 grams-only weight (550 ml) is achieved through its variable thickness.

Fly is made in odorless, soft and durable plastic material, the result of an experimental research project conducted by Elite.

Coupled to its enhanced squeezability, the Fly bottle is characterized by an innovative cap design that features a high-flow, taste-free nozzle made to ensure high fluid delivery.

All materials conform to EC and FDA regulations for food contact materials.

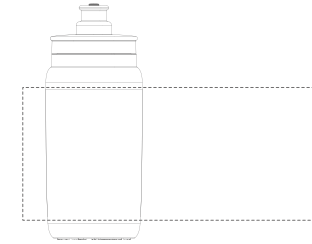

Capacity:
550 ml / 20 oz
750 ml / 26 oz
950 ml / 32 oz

Diameter:
74 mm / 2,91"
